Ravi general manager of a commercial bank believes on management b objective. He used to involve subordinates in planning and decision making. He has given autonomy to his employees to accomplish their job themselves but willing to help them if they need. He has been very successful in his activities in his activities in this respect. He hired Ashok, a fresh MBA from Kathmandu University. Ashok was good at academic performance. Ashok was posted in loan department. Ravi motivated Ashok to work independently, maintaining his faith in the philosophy of participative management. He discussed them job assigned to him to be achieved within the specified time. Ashok, however, failed to complete the job in specified time. Later on, Ravi revised the target after consultation with Ashok. However, specified targets were not achieved. Ravi meet Ashok and blame him for his non-performance. He was warned for better performance or ready for termination. Ashok was surprised for a while but later on with courage said, sir, though I like you, but I feel hesitant working with you. I sometime do not know what to do next. It takes me longer if I could benefit from your experience by having you tell me each day what steps to take next. He further told Ravi that in his previous job also, his supervisors used to help him like that. On hearing this Ravi became wordless and speculated what to do with Ashok.

Questions:

1. What would you suggest improving Ashok's performance?
2. Was Ravi's decision to terminate Ashok's was the right way to handle the situation?
3. Does Ravi should discard his believe in MBO? Give your view.
